Professional Summary

AI/ML & Data Science Developer with hands-on experience in Python, SQL, Excel, Power BI, and Machine Learning. Skilled in transforming business problems into data-driven solutions through modeling, analysis, and visualization.

Education

Jagran Lakecity University — Bhopal, Madhya Pradesh
Bachelor of Computer Applications (Hons.) in Data Science, CGPA: 8.41/10 — *Expected 2026*

Technical Skills

Programming Languages: Python, SQL
Data Visualization: Tableau, Power BI, Advanced Microsoft Excel, Matplotlib
Machine Learning Frameworks: scikit-learn, TensorFlow, XGBoost, PyTorch, Transformer
Data Analytics: Data Preprocessing, Data Cleaning, EDA, Feature Engineering, Model Evaluation, Statistical Analysis, Data Extraction (Selenium & BeautifulSoup)
AI and Deep Learning: Machine Learning, Deep Learning, Generative AI, NLP, EfficientNet-B0, LLaMA, Stable Diffusion

Professional Experience

Data Science Intern (Part-Time) — January 2026
The Developers Arena — *Remote*

- Selected as a Data Science Intern to work on real-world data science projects, gaining hands-on experience through structured training modules and project-based assessments.
- Participated in a 3-month remote internship program involving data analysis tasks, practical assignments, and continuous performance evaluations under mentor guidance.
- Developed foundational skills in data science workflows, problem-solving, and professional collaboration while adhering to confidentiality and industry best practices.

Gen-AI Powered Data Analytics — November 2025
Tata India on Forage — *Remote*

- Completed a job simulation involving AI-powered data analytics and strategy development for the Financial Services team at Tata iQ.
- Conducted exploratory data analysis (EDA) using GenAI tools to assess data quality and structure insights for predictive modeling.

Projects

CONTRA - AI-Driven Data-to-Art Platform | ***Python, Stable Diffusion, LLaMA***

- Developed a multimodal AI platform to transform text into contextual narratives and visuals.
- Engineered scalable APIs integrating NLP (LLaMA) and image generation models.

ORBITUNE - AI-Powered 16D Music Experience | ***Python, Librosa, Gemini API***

- Engineered an AI audio system to convert stereo tracks into immersive 16D audio using DSP algorithms.
- Integrated an emotion-aware chatbot (Gemini API) for personalized music recommendations.

Chhattisgarh Reservoir Level Modeling | ***Python, XGBoost, LSTM***

- Processed hydrological and meteorological data to create a clean, weekly time-series for analysis.
- Trained and compared SARIMA and LSTM models to forecast weekly reservoir water storage.

Certifications and Awards

Nvidia - AI Infrastructure and Operations Fundamentals
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
Academic Excellence Award - 100% scholarship recipient
